I have tried to reach you in effect to tell my story of corruption in Bolingbrook, and Will County. Here is a letter to the States Attorney in reference to another matter that the Justice Department is over looking. My husband is a Police Officer with Bolingbrook, and has directed all of you is employed with the Department to do what he says. This goes from the Major to the Chief of Police. His affair with a seventeen-year-old employee of Bolingbrook has raised some heads. It seems everyone needs to cover this up, based on the way it was handled. That only the beginning of many other occasion of looks the other way clause. In this particular case lack of filing police reports due to the fact Officer Peterson is our friend is going to destroy my sons and my life. I would like to meet or talk with you, to explain my story. This man is manipulating the system, to destroy mine, and benefit his. How many times has this happen to others?? At the present time I am a full time nursing student struggling to finish my goal, but because of Officer false allegation he and his girl friend are charging me with Battery. This isn't your typical domestic.

My court is at Will County court house on November 21st room 306 9:00 am

And January 6th 1:30 2003 this is INJUSTICE in action.
